Important Disclosures:

Barclays Risk Analytics and Index Solutions Ltd (“BRAIS”) is an independent wholly owned subsidiary of Barclays Bank PLC (individually and together with BRAIS and its other affiliates, “Barclays”). BRAIS is a leading provider of benchmark and strategy indices, portfolio analytics, risk and attribution models, and portfolio construction tools. As the administrator of the Barclays family of indices, BRAIS operates independently from Barclays’ Investment Bank, including its Sales, Trading, Structuring and Banking departments. Notwithstanding the foregoing, potential conflicts of interest may exist where: (i) BRAIS acts in multiple capacities with respect to a particular Barclays index, including but not limited to functioning as index sponsor, calculation agent, licensing agent, and/or publisher; (ii) BRAIS uses price contributions from trading desks in Barclays’ Investment Bank as a primary pricing source for a Barclays index; and (iii) Sales, Trading or Structuring desks in Barclays’ Investment Bank launch tradable products linked to the performance of a Barclays index. Barclays has in place policies, information barriers and governance procedures that are designed to avoid or otherwise appropriately manage such conflicts of interest and ensure the independence of BRAIS and the integrity of Barclays’ indices. Where permitted and subject to appropriate information barrier restrictions, BRAIS personnel regularly interact with trading desk personnel in Barclays Investment Bank regarding current market conditions and prices. Additional information about Barclays indices together with a copy of the BRAIS IOSCO Compliance Statement and Control Framework is available at: https://index.barclay.com/Home/Guides_and_Factsheets

Any systematic investment strategies described herein may involve a high degree of risk, including without limitation market risk and other risks inherent in investing in securities, commodities, currencies, derivatives and other financial instruments. The value of and income from investments linked to such strategies may decline in value and loss of the original amount invested can occur.

Barclays regularly trades, generally deals as principal and generally provides liquidity (as market maker or otherwise) in the securities, commodities, currencies, derivatives and other financial instruments included in Barclays indices, as well as other financial products linked to such indices. Barclays trading desks may have either a long and/or short position in such securities, commodities, currencies, derivatives and index-linked products, which may pose a conflict with the interests of investing customers and/or index users. All levels, prices and spreads are historical and do not represent current market levels, prices or spreads, some or all of which may have changed since the publication of this document. To the extent that any historical pricing information was obtained from Barclays trading desks, the firm makes no representation that it is accurate or complete.

Barclays has investment banking and other business relationships with many of the issuers of securities included in Barclays indices, which may result in potential conflicts of interest. Barclays may from time to time perform commercial, investment banking or other advisory services for the issuers of securities included in Barclays indices, including acting as manager, co-manager or underwriter of such securities.
